ANGEL BUENAVISTA

WEBSITE DESIGNER & DEVELOPER

Designing clean, user-focused websites and building modern, interactive interfaces.

PROFILE

Web Designer and Frontend Developer experienced in building, maintaining, and optimizing websites using Duda, WordPress, Amenitiz, and other web development platforms. Skilled in HTML, CSS, JavaScript, React.js, and Tailwind CSS, with knowledge of responsive design, UI/UX principles, wireframing, and visual branding. Proficient in Adobe Photoshop, Salesforce, HubSpot, and Notion, with experience in client communication, website troubleshooting, quality assurance, and workflow management. Dedicated to creating functional, visually appealing, and user-friendly websites while maintaining quality standards and continuous improvement.

WORK EXPERIENCE

eClerx Philippines Inc. (formerly Personiv) 2022 - 2026

Website Designer

Web Designer experienced in Duda website development, maintenance, and troubleshooting. Skilled in Salesforce, Adobe Photoshop, Illustrator, and website quality assurance.

Enshored - Client: Amenitiz 2026 - PRESENT

Web Designer

Designed multilingual hospitality websites for hotels and accommodations using Amenitiz, with booking engine integration. Used HubSpot for documentation and Typeform for reference gathering, supporting websites in English, Italian, French, Portuguese, Spanish, and other languages.
